03 PROJECTS

- **Portfolio Website:** Built a responsive portfolio site using HTML, CSS, and JavaScript to showcase projects and skills.

- **Stopwatch App:** Developed a stopwatch application with start, stop, and reset features using HTML, CSS, and JavaScript, focusing on DOM manipulation and user interaction.

- **Internship Management System:** Created an internship tracking system using JSP, JavaBeans, and Apache Derby. Includes user/admin authentication; users can update profiles and manage internships, while admins can search user details.

- **Recipe App:** Developed a Java Swing application featuring user authentication, recipe search, and management, allowing users to add, view, and search recipes, including ingredients and step-by-step procedures.

04 INTERNSHIP

As a **MERN Stack Development Intern** at Webstack Academy, I built full-stack applications using MongoDB, Express.js, React, and Node.js. My work involved developing RESTful APIs, optimizing front-end components and managing backend services, enhancing my skills in end-to-end web development.
